ABOUT THE AUTHORS

Mike Roberts is a Principal Analyst with Informa Telecoms & Media. His coverage areas include 3G, WiMAX, Wi-Fi, Wireless VoIP, Fixed-Mobile Convergence and IP Multimedia Subsystem. Mike's primary outputs are reports, research services and databases; his reports for Informa include *Future Mobile Broadband: HSPA, EV-DO, WiMAX and LTE*.

Mike has been tracking emerging wireless technologies since 2001, when he joined Informa to run *Planet Wireless*, a research service on Wi-Fi, Bluetooth and related markets. He has been researching the broader mobile and fixed telecoms markets since 2000, when he started contributing to Informa research services such as *Global Mobile, 3G Mobile, Broadband Markets* and *Telecom Markets*. Mike is a regular speaker at key industry events such as the *3GSM World Congress, WiMAX, Wireless VoIP, HSxPA* and the *Wireless Event*.

Anthony Cox is editor of *Mobile Communications Europe* and has been commenting on the telecommunications sector for close to a decade. He was for several years the editor of Informa's flagship fixed-line title *Telecom Markets* and also conceived and designed the *Broadband Subscriber Database*, Informa's fixed-line database tracking worldwide DSL, cable and broadband and fixed-line connectivity. He has contributed to a number of Informa's reports and was the lead author of both editions of *Future Broadband Markets*.

Richard Jesty is a senior consultant with Informa Telecoms and Media, where he focuses on mobile content and services worldwide. He has an in-depth knowledge of the market, developing in-house original online research amongst Informa's extensive database of telecoms professionals, and carrying out a number of consultancy assignments in Europe and the US. He has been either the lead author or a contributor to several Informa reports on the mobile content market, including *Mobile Entertainment, Mobile Content and Applications* and *Mobile Enterprise*.
