ABOUT THE AUTHORS

David McQueen is a Principal Analyst at Informa Telecoms & Media with a key focus on mobile handset developments and vendor strategies worldwide. David has considerable experience in the telecoms research and consulting sector and has gained first hand experience in the handset markets' needs and requirements. At Informa Telecoms & Media, David is the lead author on a range of strategic reports including: *Mobile Applications Platforms and Operating Systems*, *Mobile TV: Broadcast and Mobile Multimedia*, *Multimedia Handsets and Devices* and *Ultra Low-Cost Handsets*.

David is a frequent speaker and chair at international conferences and has made many presentations on current trends and future development of mobile handsets and devices. Before joining Informa Telecoms & Media, David was with the UK's Post Office Consulting Group where he was responsible for providing competitor and market analysis on the communications market. He holds a Masters degree in marketing and honours degree in econometrics and mathematical economics.

Dr Malik Kamal-Saadi is a Principal Analyst at Informa Telecoms & Media. He has planned, authored and co-authored many Informa Telecoms & Media reports, including *Mobile Applications Platforms & Operating Systems*, *Open Source in Mobile*, *Future Mobile Broadband*, *Mobile VoIP*, *Mobile Converged Devices* and *Future Mobile Computing*.

Malik has considerable experience in the telecommunications industry, focusing on the development of related technologies and markets. He is a frequent speaker at key telecommunications industry conferences and organiser of many workshops for Informa Telecoms & Media's events. He has also played a key role in a number of European and Government projects. Malik has a PhD degree from Groupe d'Etude des Semiconducteurs (GES, France), specialising in Semiconductor Devices and Materials, Design and Engineering.

Gavin Byrne is a Research Analyst at Informa Telecoms & Media looking at mobile handsets and devices. With over six years' experience in research, competitive intelligence and benchmarking within the telecoms and IT sectors he has provided comment to numerous industry leading publications. He is lead author of Informa's *Multimedia Devices: Music* and *Ultra Low-Cost Handsets* reports as well as contributing author to the strategic reports *Mobile Converged Devices* and *Mobile Applications Platforms and Operating Systems*.

Gavin also counts several years marketing experience gained in the IT, Internet and consumer goods sectors. He has an honours degree in European Business Administration.

ACKNOWLEDGEMENTS

The authors wish to thank the following organisations – amongst many others – for providing information, briefings and interviews that helps support and underpin the research process towards the production of the 2007 edition of *Future Mobile Handsets*.

Abaxia	Icera Inc	Communications
ACCESS	Immersion	QUALCOMM
Analog Devices	Infineon	Red Bend
Agere	Innopath	Renesas
Apple	Intrinsyc	RIM
ARM	IPWireless	Samsung
Atheros	KDDI	Sasken
Beatnik	Kineto Wireless	Scalado
Belgacom	Khronos Group	SingTel
BenQ	KTF	SK Telecom
Bitfone	Kyocera	Skype
Bluetooth SIG	LG	Sonim
Brightpoint	LIPS (Standard body)	Sony Ericsson
Brightstar	LIMO (standard body)	Spanion
Broadcom	Marvel Mentor Graphics	Sun Microsystems
BT	Microsoft	Symbian
Cingular	Motorola	TCL
Ecrio	NEC	Tegic
Ericsson Mobile Platforms	NemeriX	Teleca
e28	Nokia	Telegent
Flextronics	NTT DoCoMo	Texas Instruments
Freescale	NXP	Toshiba
Fring	O2	Trolltech
Hellosoft	OMTP standard body	Truphone
Huawei	Openwave	T-Mobile
HP	Orange (France Telecoms)	UIQ
HTC	Palm	Vodafone
Huawei	PalmSource (now part of Access)	Wind River
Hutchison 3	Panasonic Mobile	ZTE

The authors would also like to thank all those who contributed to Informa Telecoms & Media's Mobile Handsets Industry Survey 2007. Please note that the survey is completely anonymous and it is impossible for data to be associated with a particular company in any way

Contents

CHAPTER 1

EXECUTIVE SUMMARY	1
--------------------------------	---

CHAPTER 2

INTRODUCTION TO THE MOBILE COMMUNICATIONS INDUSTRY	17
<i>Mobile network generations</i>	17
Cellular network technologies	18
<i>Mobile network generations and deployment timelines</i>	18
Digital 3G networks	18
<i>WCDMA, EV-DO selected features</i>	19
<i>Global 3G mobile deployments, June 2007</i>	19
Digital 3.5G networks	19
High Speed Downlink Packet Access (HSDPA)	20
High Speed Uplink Packet Access (HSUPA)	20
CDMA2000 1xEV-DO Revision A	21
CDMA2000 1xEV-DO Revision B	21
Subscriber forecasts	22
<i>Global mobile subscribers, by region, 2007-2012</i>	23
<i>Global mobile subscriber penetration, by region, 2007-2012</i>	25
<i>Global top 10 investors and operators by proportionate equity subscribers, by region, March 2007</i>	26
<i>Global mobile subscribers, by technology, 2007-2012</i>	27
Regional mobile subscriber analysis	28
North America	28
<i>North America mobile subscribers, by country and technology generation, 2007-2012</i>	29
Latin America	29
<i>Latin America mobile subscribers, by technology generation, 2007-2012</i>	30
Asia Pacific	31
<i>Asia Pacific mobile subscribers, by technology generation, 2007-2012</i>	32
<i>Asia Pacific mobile subscribers, by sub-regions, 2007-2012</i>	33
Europe	33
<i>Europe mobile subscribers, by technology generation, 2007-2012</i>	34
Africa and the Middle East	35
<i>Africa and the Middle East mobile subscribers, by technology generation, 2007-2012</i>	36
Prepaid services	38
<i>Global prepaid penetration of the mobile customer base, by region, 2002-1H07</i>	38

CHAPTER 3

HANDSET MARKET TRENDS AND OUTLOOK	41
Handset market overview	41
Mobile handset market analysis	43
<i>Global mobile handset sales, by region, 2006-2012</i>	44
<i>Global mobile handset sales, by region and technology, 2006-2012</i>	46
North America	55
<i>North America mobile handset sales, by technology group, 2006-2012</i>	56
US	56

<i>US mobile handset sales, by technology group, 2006-2012</i>	57
Canada	58
<i>Canada mobile handset sales, by technology group, 2006-2012</i>	59
Latin America	59
<i>Latin America mobile handset sales, by technology group, 2006-2012</i>	61
Asia Pacific	61
<i>Asia Pacific mobile handset sales, by sub-region, 2006-2012</i>	62
<i>Asia Pacific mobile handset sales, by technology group, 2006-2012</i>	63
Japan	63
<i>Japan mobile handset sales, by technology group, 2006-2012</i>	64
China	65
<i>China mobile handset sales, by technology group, 2006-2012</i>	66
<i>China top handset vendors, 2007</i>	67
South Korea	68
<i>South Korea mobile handset sales, by technology group, 2006-2012</i>	69
India	70
<i>India mobile handset sales, by technology group, 2006-2012</i>	70
Rest of Asia Pacific, developed	72
<i>'Rest of Asia Pacific, developed' mobile handset sales, by technology group, 2006-2012</i>	72
Rest of Asia Pacific, developing	73
<i>'Rest of Asia Pacific, developing' mobile handset sales, by technology group, 2006-2012</i>	73
Europe	74
<i>Europe mobile handset sales, by technology group, 2006-2012</i>	74
Western Europe	75
<i>West Europe mobile handset sales, by technology group, 2006-2012</i>	76
Eastern Europe	77
<i>East Europe mobile handset sales, by technology group, 2006-2012</i>	77
Africa and the Middle East	78
<i>Africa and the Middle East mobile handset sales, by technology group, 2006-2012</i>	78
Africa	79
<i>Africa mobile handset sales, by technology group, 2006-2012</i>	80
Middle East	81
<i>Middle East mobile handset sales, by technology group, 2006-2012</i>	82
Mobile handset market analysis by technology	82
<i>Global mobile handset sales, by technology group, 2006-2012</i>	83
<i>Global mobile handset sales, by technology family, 2006-2012</i>	84
GSM family	84
<i>Global GSM family mobile handset sales, by technology, 2006-2012</i>	85
<i>Global HSDPA mobile handset sales, by region, 2007-2012</i>	87
CDMA family	87
<i>Global CDMA family mobile handset sales, by technology, 2006-2012</i>	88
<i>Global EV-DOa mobile handset sales, by region, 2007-2012</i>	90
Replacement handset markets	90
<i>Global replacement handset sales in year as a percentage of total handset sales, by region, 2007-2012</i>	91
<i>Global timeframe for replacement handset sales, by sub-region</i>	92
The second-hand handset market	92

CHAPTER 4

HANDBET VALUE CHAIN AND PRODUCTION	95
Evolution of the mobile handset value chain	95
<i>The traditional mobile handset value chain</i>	95
<i>The mobile handset value web</i>	97
<i>Industry opinion: main player in the handset value web, 2007 and 2012</i>	98
Areas of influence and convergence in the value web	99
<i>The convergence of key player offerings</i>	100
Vendor differentiation	101
<i>Industry opinion: important factors to ensure vendor success in the handset market by 2012</i>	102
Technology leadership	102
<i>Industry opinion: rating of technology components that will influence the success of handset devices by 2012</i>	103
The importance of brands	103
<i>Industry opinion: rating of companies most likely to have influence over branding of handset devices in 2012</i>	104
Handset manufacturing trends	105
<i>Handset manufacturing approaches and trends</i>	107
<i>Industry opinion: proportion of total handsets made by contract/ 'white-label' manufacturers, 2007 and 2012</i>	108
The ODM market	109
Case-study: Compal Communications	111
EMS providers	112
Case-study: Foxconn International	113
Case-study: Flextronics	114
<i>Flextronics handset production capabilities</i>	114
Design houses	115
Production	115
Quality control processes	117
Mobile device management (MDM)	119
Interoperability	119
<i>Interoperability testing (IOT) strategy</i>	120
Handset distribution and retail	121
<i>Mobile distribution value chain</i>	122
Retail subsidies and total cost of ownership	123
<i>The effect of handset subsidies on revenues</i>	124
<i>Industry opinion: ASP* (average selling price) at which handset manufacturers sell new handsets to distributors/network operators, by handset type, 2007</i>	125

CHAPTER 5

MARKET SEGMENTATION	127
Segmentation by technology	128
<i>Penetration matrix of features segmentation versus price tiers, 2006 and 2012</i>	128
Basic phones	129
<i>Basic phones: Sony Ericsson J120 and Motorola Motofone</i>	130
Low feature phones	130
<i>Low feature phone: Samsung UpStage</i>	130
Feature rich phones	131

<i>Feature rich non-smartphone: Sony Ericsson K850i</i>	131
<i>Feature rich smartphone: Nokia N95</i>	132
<i>Global mobile handset sales, by technology segmentation, 2006-2012</i>	133
Future technology segmentation	133
<i>Evolving mobile handset segmentation, 2002-2012</i>	134
Other connected computing devices	135
Segmentation by income	136
<i>Probable global mobile subscriber distribution by device ASP, 2006-2012</i>	137
Lifestyle segmentation	138
<i>Mobile handset market lifestyle segments and features</i>	139
<i>Technology tiers of principal lifestyle market segments</i>	140
<i>Industry survey: What will be the key handset market segments for handset manufacturers over the next five years?</i>	141
Leisure	141
Enterprise	142
Design	143
Demographic-influenced handsets	143
Multi-function segment	144
Vendor segmentation strategies	144
<i>Changes in consumer requirements for mobile handsets</i>	145
Nokia	146
Motorola	147
<i>Motorola segmentation matrix</i>	147
Samsung	148
<i>Samsung handset segmentation</i>	148
Sony Ericsson	148
<i>Sony Ericsson device segmentation</i>	149
LG	149
<i>LG Electronics consumer segmentation</i>	149

CHAPTER 6

HANDSET VENDOR STRATEGIES	151
Introduction	151
<i>Top Five handset vendors' ASP, 2004-1H07</i>	152
Market share	154
<i>Global handset sales and market share, by top vendors: 2005, 2006 and 1H07</i>	154
Nokia	155
Company overview	155
<i>Nokia handset shipments, operating margin and ASP, 2004-1H07</i>	155
Product portfolio	157
<i>Nokia devices: penetration of key features: 2005, 2006 and 1H07</i>	157
Strategy	158
<i>Nokia's re-organisation, 2008</i>	159
Motorola	160
Company overview	160
<i>Motorola handset shipments, operating margin and ASP, 2004-1H07</i>	160
Product portfolio	162
<i>Motorola devices: penetration of key features: 2005, 2006 and 1H07</i>	163
Strategy	164

<i>Motorola's changing organisation, 2005-2007</i>	164
Samsung	165
Company overview	165
<i>Samsung handset shipments, operating margin and ASP, 2004-1H07</i>	166
Product portfolio	167
<i>Samsung devices: penetration of key features: 2005, 2006 and 1H07</i>	168
Strategy	169
Reshaping the company	169
Collaboration with brands and notable agreements	170
Content strategy	170
Selected technology strategies	171
Sony Ericsson	171
Company overview	171
<i>Sony Ericsson handset shipments, income before taxes ratio and ASP, 2004-1H07</i>	171
Product portfolio	172
<i>Sony Ericsson devices: penetration of key features: 2005, 2006 and 1H07</i>	173
Strategy	175
LG Electronics	176
Company overview	176
<i>LG Electronics handset shipments, operating margin and ASP, 2004-1H07</i>	177
Product portfolio	177
<i>LG Electronics devices: penetration of key features: 2005, 2006 and 1H07</i>	178
Strategy	179
'Top Five' vendor competitive analysis	180
<i>SWOT analysis of the Top Five vendors</i>	180
Other players	182
Apple Inc	183
<i>Apple iPhone</i>	184
BenQ	184
HTC	186
<i>Selected HTC handsets, 3Q06-2Q07</i>	187
Huawei	187
Kyocera	189
NEC	190
Panasonic Mobile Communications	192
Pantech & Curitel	193
ZTE	194
CHAPTER 7	
HANDSET FEATURES	197
Feature set roadmap	197
<i>Global handset features penetration, 2001-2012</i>	198
Mobile imaging	198
Camera handsets	199
Market overview and drivers	199
Cameraphone trends and forecasts	201
<i>Global cameraphone sales, 2006-2012</i>	201
Mobile video	202

Market overview and drivers	202
<i>Typical video parameters of common video applications</i>	203
Video handset trends and forecasts	204
<i>Global mobile video handset sales, 2006–2012</i>	205
Mobile broadcast television	205
Market overview and drivers	205
Technology enablers	207
<i>Mobile broadcast technology groups</i>	207
TV handset trends and forecasts	207
<i>Global broadcast TV handsets sales, by technology, 2006-2012</i>	208
Mobile audio	209
Market overview and drivers.	209
Music handset trends and forecasts.	210
<i>Global mobile music (MP3/ACC) handset sales, 2006-2012</i>	211
Application platforms	211
Mobile Java	212
Market overview and drivers	212
Java handset trends and forecasts.	213
<i>Global mobile Java handset sales, 2006-2012</i>	213
Binary Runtime Environment for Wireless (BREW)	214
Market overview and drivers	214
BREW handset forecasts	215
<i>Global mobile BREW handset sales, 2006-2012</i>	216
Adobe Flash handsets	217
Market overview and drivers	217
Adobe Flash handset trends and forecasts	218
<i>Global mobile Flash Lite handset sales, 2006-2012</i>	218
External memory	218
Market overview and drivers.	218
<i>External memory cards used by vendor</i>	219
Handsets with external memory: trends and forecasts.	220
<i>Global sales for mobile handsets featuring an external memory slot, by standard, 2006-2012</i>	221
Personal area networks	221
Bluetooth	222
Market overview and drivers	222
<i>Bluetooth connectivity</i>	222
Bluetooth handset trends and forecasts.	223
<i>Global Bluetooth mobile handset sales, 2006-2012</i>	223
Near Field Communication	224
Multimode handsets	226
Wireless local area network (WLAN)	226
<i>Global dual mode Wi-Fi- enabled mobile handset sales, 2006-2012</i>	228
WiMAX	228
<i>Global WiMAX mobile handset sales, 2007-2012</i>	230
Positioning and location-based services	231
Devices.	232

CHAPTER 8

ADVANCED OPERATING SYSTEMS, USER INTERFACES AND BROWSERS	235
Mobile OS market and technologies	236
OS market segmentation	236
<i>Segmentation of mobile OS market</i>	237
Proprietary OS	237
<i>Different proprietary OS approaches</i>	237
Open architecture OS	239
<i>Typical open OS architecture</i>	240
Open source	242
Symbian	243
Overview, OS development and support in the mobile market	243
<i>Symbian pricing model</i>	244
OS development and support	244
Symbian technology roadmap	245
<i>Symbian OS roadmap v8.0 – v9.5</i>	245
Symbian strategy in the mobile phone market	246
<i>Current Symbian licensees and number of Symbian devices on sale, October 2007</i>	246
Microsoft Windows Mobile (WM)	247
Overview, OS development and support in the mobile market	247
<i>Windows Mobile roadmap</i>	248
Microsoft roadmap	249
<i>Windows Mobile OS releases</i>	249
Microsoft strategy in the mobile phone market	250
<i>Main operators and device manufacturers supporting Microsoft WM OSs</i>	251
Linux	252
Overview, OS development and support in the mobile market	252
<i>Main third party developers of embedded Linux OS and platforms for mobile devices</i>	254
Linux mobile phone portfolio	256
<i>Mobile devices with Linux capability, at 2Q07</i>	257
Linux strategy in the mobile phone market	257
<i>Benefits and challenges of Linux to the mobile industry</i>	258
OS opportunities in the mobile handset market	258
Market segmentation of OSs	258
<i>Market segmentation of OSs for handset devices</i>	260
The evolution of the mobile OS industry	260
<i>Global smartphone sales, by OS and segment, 2006-2012</i>	262
Market forecasts by OS type	262
<i>Global open OS handset sales, by OS type, 2006-2012</i>	264
The user interface (UI) and user experience	265
Challenges with mobile devices and services and the role of UI	265
The increasing mobile handset complexity	265
Access and discovery of mobile services	266
Different aspects of the UI and its role in improving the user experience	266
Device customisation and the role of UI	267
Active Idle Screen (AIS) and Dynamic UI	268
Mobile user experience management	270
<i>The context of mobile device management (MDM)</i>	270

OTA MDM's role in bridging the gap between the subscriber and mobile services	271
Interoperability issues and standardisation	273
<i>Development of key OMA-DM client specifications and their stage of approval as of 1H07</i>	274
Data input/output methods.	274
Input methods	275
Output methods	276
Mobile browser technologies	277
The shake-up of the mobile browser market	277
The decline of the mobile browser market	279
The impact of open source	280
The mobile browser market and challenges	280
<i>Mobile access/browsing</i>	281
Profile: Nokia S60	282
<i>Nokia S60 evolution and compatibilities across different generations</i>	283
Profile: Sony Ericsson UIQ	284
<i>UIQ Evolution 2000-2007</i>	284

CHAPTER 9

HANDSET DEVICES AND HARDWARE TECHNOLOGY	287
Introduction	287
Processing technology	288
The need to compromise between performance, power consumption and cost	288
<i>CPU power consumption versus processing speed for different architectures and silicon technologies</i>	289
Applications processors	290
<i>ARM processor licensees by architecture version and type, up to 1H07</i>	290
<i>ARM architecture evolution and key technology additions</i>	291
<i>Attributes of ARM architectures</i>	292
Multimedia accelerators and co-processors	293
<i>Sample hardware accelerator vendors by application</i>	294
Digital signal processing (DSP)	295
Mobile wireless modems and chipsets	295
Challenges facing different components of the wireless modem	295
<i>Mobile handset reference design</i>	296
<i>Different network evolution paths</i>	297
RF and related components	298
The current market landscape and evolution	298
<i>Different signal modulations associated with different mobile networks, effect on power consumption and price</i>	300
Radio frequency and multimode/multiband support	300
Multi-radio in a single chip and digitisation of radio processing	301
<i>Early multi-radio single chips</i>	302
Digital baseband and multimedia processors, from modular approach to single chip	303
Different scenarios by market segment from basic phones to smartphones	303
<i>Single-chip versus separate processing components by handset market tier</i>	304
Case study of modular digital baseband and System in Package (SiP)	304
Case study of the single-chip approach	306
Case study of the separate modem and multimedia accelerator approach	308
Evolution of the wireless modem in a single-chip evolution	309

<i>Major differences between System on Chip (SoC) and System in Package (SiP) architectures</i>	310
Market forecasts for wireless modem processors in the mobile handset market	311
Market for basic phones	311
Market for low feature phones	311
Market for feature rich phones, excluding smartphones	312
Market for feature rich low-end smartphones	312
Market for feature rich high-end smartphones	313
Case studies of the leading chipset vendors	313
Qualcomm	313
<i>Qualcomm's business model</i>	313
<i>Qualcomm chipset roadmap</i>	316
<i>Main Qualcomm EV-DO and WCDMA/HSDPA/HSUPA licensees</i>	317
Texas Instruments	318
<i>Texas Instruments: main customers and partners in the mobile market</i>	319
<i>Texas Instruments portfolio of generic chipsets</i>	320
<i>Roadmap of TI's OMAP generations and their technology specifications</i>	321
Ericsson Mobile Platforms (EMP)	323
<i>Main Ericsson Mobile Platform customers</i>	324
<i>EMP chipset business model</i>	324
<i>EMP mobile platforms portfolio and roadmap</i>	325
<i>Multimedia capabilities of EMP's WCDMA and HSPA platforms</i>	325
Infineon	326
<i>Infineon chipset product portfolio and roadmap</i>	326
Freescale	327
<i>Freescale wireless platform portfolio</i>	329
Broadcom	329
<i>Broadcom business model</i>	330
<i>Broadcom chipset product portfolio and segmentation</i>	331
NXP	331
<i>NXP's main customers for mobile and personal devices</i>	331
<i>Nexperia cellular system solution portfolio</i>	332
Memory technology	333
Embedded storage	333
Embedded storage evolution in the handset market	334
<i>Global mobile handset sales by feature set segment and by embedded storage memory footprint, 2006-2012</i>	334
RAM memory	336
Technology overview	336
Multi-chip packages	336
<i>Memory applications and MCP evolution</i>	337
Mobile RAM industry roadmap and forecasts by technology and by memory footprint	337
<i>Comparison of competing mobile computing RAM technologies</i>	338
<i>Global mobile handset sales by feature set segment and by RAM memory footprint, 2006-2012</i>	338
<i>Technology roadmap – performance of mobile computing RAM</i>	339
Screen technology	340
Market forecasts by colour depth	340
<i>Global mobile handset sales by feature set segment and the number of colours supported in the display, 2006-2012</i>	341
Market forecasts by display resolution	342

<i>Common mobile display sizes and resolutions worldwide</i>	342
<i>Global mobile handset sales by feature set segment and display resolution, 2006-2012</i>	343
Battery technologies	343
<i>Battery capacity versus mobile applications and services demand</i>	344
<i>Battery technology attributes and pricing</i>	345
Smart battery designs	346
Market forecasts by battery capacity	346
<i>Global mobile handset sales by feature set segment and battery capacity, 2006-2012</i>	347
<i>Global mobile battery technologies' share of handset shipments, 2006-2012</i>	347
<i>Battery technology roadmap, 1960-2014</i>	348
The role of the power amplifier	348
<i>Signal attenuation as a function of transmission frequency</i>	349
<i>Typical consumption of power amplifiers</i>	349
<i>Main manufacturers of power amplifiers</i>	350
Power management systems	350

CHAPTER 10

STRATEGIC OUTLOOK AND CHALLENGES	353
Market outlook	353
<i>Industry opinion: How likely are the following events to occur over the next five years?</i>	354
Bill of materials (BOM) and average selling prices (ASP)	354
Informa terminology and methodology	354
<i>Main components and variables used for estimating the total cost of the device and the ASP</i>	354
Factors influencing handset manufacturing	356
Trends in controlling the device cost	356
Average hardware and software requirements by handset segment	357
<i>Global average hardware requirements by mobile handset segment, 2006-2012</i>	358
<i>Handset hardware and software components</i>	359
The bill of materials and manufacturing costs	359
The main factors influencing the BOM	360
Manufacturing costs and the role of new semiconductor technologies	360
The trade between outsourcing and in-house manufacturing	361
The role of IPRs	362
Trends in the BOM by market segment	363
<i>Global average sale price and bill of materials breakdown, evolution by market segment, 2006-2012</i>	364
Trends in the bill of materials by access technology	367
<i>Global ASP, BOM and net cost, by technology grouping and handset market segment, 2006-2012</i>	368
ASP analysis by feature set, wireless technology and region	370
Competition and its effect on mobile handset ASP	370
<i>Average sale price of the top five vendors and global ASP trends</i>	371
Trends of the ASP by market segment and wireless technology	372
Handset sales distribution versus handsets price	372
<i>Handset sales distribution versus handset price, 2006 and 2012</i>	372
Mobile handset ASP by market segment	372
<i>Global mobile handset ASP by market segment from basic phone to high-end smartphone, 2006-2012</i>	374
Mobile handsets ASP by wireless access network	375
<i>Global mobile handset ASP by network generation from 2G to 3.5G+, 2006-2012</i>	375
ASP regional forecasts and analysis	375

<i>Global mobile handset ASP by region, 2006-2012</i>	376
Low-cost handsets from ULC to value feature phones and smartphones	378
<i>Minimum handset BOM and minimum sales price (MSP) by feature set, 2006-2012</i>	380
<i>The minimum and average selling prices by feature sets, 2006-2012</i>	381
Mobile network evolution	381
<i>Mobile and wireless broadband standards</i>	382
3.9G or Long-Term Evolution	382
<i>3G-4G system features</i>	383
HSPA Evolution	383
Ultra Mobile Broadband (UMB)	383
4G	383
Convergence	384
Mobile converged devices	386
APPENDIX	
INDUSTRY SURVEY	387
Methodology	387
<i>Profile of survey respondents by industry sector</i>	387
<i>Profile of survey respondents by location</i>	388
<i>Profile of survey respondents by role</i>	388
<i>Profile of survey respondents by level of knowledge of handsets market</i>	388
